Work Experience

Recruiter at Sogeti Part of Capgemini **(Jul 2025 — Present)**

In this role within Sogeti's Business Unit Noordoost in Groningen, I focus on recruiting young IT professionals from diverse backgrounds, including backend developers, data engineers, testers, and business analysts, to support the organization's growth in a competitive market. During my initial months, I prioritized networking, understanding technical profiles, and sourcing candidates through talent pooling and personalized outreach, while building a candidate pipeline that led to my first three successful hires. Committed to professional development, I started the Lean Six Sigma Yellow Belt training and am eager to pursue further training in SAFe (Scaled Agile Framework), Prince2, and AZ-900.

Recruiter at ABN Amro **(Sep 2024 — Jun 2025)**

As an intern at ABN Amro's IT Internship Desk, I honed recruitment skills by screening CVs, conducting structured interviews, and networking to attract top IT talent, resulting in the successful hiring of approximately 30 interns. I leveraged Power BI for data analysis, creating an automated dashboard and reports that provided actionable insights into the recruitment process, saving my manager several hours weekly compared to manual methods and reducing errors. This experience strengthened my communication, analytical, and decision-making abilities in a fast-paced financial IT environment.

Assistant Wealth Advisor at Affluent **(Sep 2023 — Mar 2024)**

At Affluent, I supported new client onboarding by developing customized asset allocations based on investment horizons and analysed existing portfolios to prepare quarterly updates, including news, performance metrics, and strategic recommendations, for over 40 clients. I authored the "Financiële Terugblik 2023" report, which summarized annual financial insights and trends for the firm. This role deepened my interest in finance and provided hands-on exposure to business investment strategies.

Duty Manager at Landgoed De Wilmersberg **(Jan 2021 — Jan2023)**

Progressing through all hospitality roles, I advanced to Duty Manager, where I coordinated daily operations, enforced quality standards, and optimized guest experiences across the estate. I demonstrated leadership by managing logistics for a 1000-guest outdoor concert, ensuring seamless execution through team coordination and problem-solving. This position built my adaptability and operational management skills in high-pressure settings.

Server at Hotel de Jong, Ameland **(Zomer ‘23, ‘24, ‘25, ‘26)**
Server at Restaurant STEEF, Leeuwarden **(Jun 2025 — Dec 2025)**
Server at Faro 2 en Torenrestaurant, Texel **(Zomer ‘18, ‘19, ‘20)**
Bartender at Landgoed Lauswolt **(Sep 2019 — Jul 2020)**
Assistant Chef at Van der Valk Hotel Leeuwarden **(Nov 2018 — Jul 2019)**
Allround Employee at McDonald's De Haven Drachten **(Okt 2016 — Jun 2018)**

In these entry-level hospitality positions, I developed foundational skills in teamwork, customer service, and working under pressure while maintaining high standards in fast-paced environments.

Education

Master of Science in Management, Nyenrode (2026-Present)
Bachelor International Hospitality Management, NHL Stenden (2018-2025)
Minor Operation Management, at Technical Business Administration

Extracurricular Activities

- Provided tutoring in Finance at NHL Stenden.
- Provided homework support in Mathematics at Drachtster Lyceum.
- Summer worker in 2017 at an apartment complex and farm in Portugal.

Skills and Qualities

- **Analytical and Data-Driven**: Skilled in Power BI for creating recruitment dashboards and applying data-driven tools from Operations Management minor to optimize processes.
- **Financial Acumen**: Developed via Finance tutoring, client portfolio assistance at Affluent, and market tracking, with expertise in asset allocation and reporting.
- **Leadership and Team Coordination**: Proven through Duty Manager operations, event organization for 1000 guests, and diverse IT recruitment to build inclusive teams.
- **Eager to Learn**: Committed to growth, with Lean Yellow Belt training and plans for SAFe, Prince2, and AZ-900 training.
- **Adaptability and Problem-Solving**: Rapidly adapts to new roles in hospitality, finance, recruitment, and IT, identifying and resolving issues efficiently in dynamic settings.
